Clavis

INTRO

Clavis working table system is composed of a series of modular structural elements connected together by a patented joint, heart of the project. The coupling and the 45° rotation of the elements allow an easy and tool-free frame assembly.

Thanks to its modular components Clavis is a system adaptable to multiple applications and configurations: from single desks to multiple benches to standing workstations.

A universal clamp allows to equip the tables with a series of multifunctional accessories. The systems is enriched by screens in various materials, modesty panels, shelves, drawers and screens with additional fabric magnetic panels or upholstered on one or two sides.

Il sistema di tavoli da lavoro Clavis si compone di una serie di elementi strutturali modulari che si uniscono tra loro grazie al giunto brevettato, cuore del progetto. L'innesto e la semplice torsione a 45° degli elementi garantiscono un assemblaggio veloce e "tool free".

Grazie ai suoi componenti Clavis è un sistema adattabile a infinite tipologie ed applicazioni: configurazioni che vanno dal tavolo singolo alle workstation multiple e alle postazioni di lavoro in piedi. Un morsetto universale permette di equipaggiare i tavoli con una serie di accessori multifunzionali. Completano il sistema modesty panels, mensole, cassetti, schermi con possibilità di tessuto magnetico o rivestimento su un o due lati.

I piani di lavoro, oltre che nella loro versione in melaminico, sono inoltre disponibili nella finitura laccata opaca, in cristallo e legno consentendo a Clavis di essere utilizzato anche in ambienti semi-direzionali.
